## MOST RENOWNED TEACHERS OF DELHI

Believe us nothing matters more than having Best and Stable Faculties. Scholar's Academy is a Young organisation with young people who believe that nothing matters more than future of your kids. Exceptionally talented, we connect with the Students in the most friendly way making class a perfect platform to learn.

## ENORMOUS PERSONAL ATTENTION

Every individual student has a different set of requirements and problems. He must have a professional mentor in each case. We ensure that he has a person to bank on his problems that's why we have a program for Individualised Mentorship, where each student gets a dedicated mentor.

## SELF DEVELOPED STUDY MATERIAL

The Study material used in the classes are being designed and developed by the same team of Faculties who are training the students thereby maintaining a synchronisation in the class. Out of enormous content available in the market, this ensures that our students don't have to struggle to find right content. The Best quality of printing ensures that the students can read without pressure.

## **SIMPLE TEACHING BASED ON CONCEPTS NOT ON THE FORMULAS**

We are staunch believer of the fact that Conceptually if someone is sound then he doesn't need to cram the formulae as all of them can be derived using the same. Hence we NEVER do a formula oriented approach and all our emphasis lies on most important thing- the CONCEPT. That's why our students loves our classes the most.

## **ROBUST TEST CONDUCTION & IT'S GRAPHICAL ASSESSMENT**

Testing is an integral part of Success. Students must face simulated exams multiple times in class before they take the actual exam. Hence we leave no stone unturned to provide the Testing Platform which is simply best in the industry. With both options of Online test and Offline test a student is well versed before he is ready to sail.

These tests can be taken on our mobile application or internet connected computer making it an exact simulation of online tests(like JEE Mains) conducted at National Level.

## **EMPLOYING THE RIGHT TECHNOLOGY**

Since we are Seasoned engineers, the technology we use is easy to use to all users and Scalable in terms of architecture. From online testing platform to biometric attendance, video lectures to doubts on whatsapp, Parents dashboard to check course completion, test performances and attendances, we are far ahead from others.

# SCHOLAR'S FORMULA FOR MAKING SCHOLAR'S

## LEARNING THROUGH 3-DIMENSIONAL VISUALISATION

We understand that Learning can be more effective if it is Visualised properly. It helps towards a deeper clarity on concepts and better retention of the subject. To enable the same we have CONCEPTUALISED learning through 3-D ANIMATIONS in Physics. This is FIRST TIME EVER a coaching institute is doing the same. Some of the most advanced problems at +1 and +2 level have been completely solved and depicted in 3-D animation form so that a student can really feel what is happening in the given situation. Every enrolled student is given one CD with one year activation key at the time of admission.

# COURSES IN CLASS 10th

## Three Year Program for IIT-JEE Mains, Advanced/Medical/School Boards Exams

There is an enormous Gap between what a student learns till Class 10th and what he has to start learning in Class 11th. Due to this, major chunk of those students, who start off their preparations after class 10th, face difficulty to cope up with the challenges to be faced in 11th. This is perhaps due to the voluminous syllabus in class 11th compared to class 10th. Best time to start preparation is from the beginning of class 9th but in case you have not been able to do so, it is then wise to start your preparation just from the start of Class 10th.
